# USR-14A/USR-11A   UNIVERSAL SUBRACK

FEATURES

- ❑ Accomodates 14 Cards and 1 Power Supply or 11 Cards and 2 Power Supplies
- ❑ 100 - 240 VAC/240 Watt Switching Power Supply
- ❑ LED Status Indicators
- ❑ External 12 VDC Battery Terminal Connector
- ❑ Dry Contact Alarm Output

The USR-14A and USR-11A are universal 3RU/19" subracks designed to accept all Elcommtech's card style products.

The subrack includes the chassis with guides for cards and one or two modular power supply.

The USR-14A subrack accommodates up to 14 cards and 1 modular power supply USR-PSA1.

The USR-11A subrack accommodates up to 11 cards, 1 main and 1 redundant modular power supply USR-PSA1.

All USR series subracks are powered by the USR-PSA1 modular power supply which supports 100 – 240 VAC mains input with optional external battery backup.

The USR-PSA1 modular power supply provides integrated alarm facility which activates when an alarm condition occur on any of the installed cards.

The dry contact alarm output terminal is provides for communicating the alarm condition to external devices.
